Dear Lina:

Thank you for your inquiry regarding packaging used in the Cluster X2 product we ship to you. The bottles were purchased from Alpha Plastics in St Louis. To the best of our knowledge, DEHP and/or the plasticizers BBP, DBP, DIDP, DINP and DnOP are not used as an ingredient or in any of the ingredients or packaging materials for the finished product Cluster X2 which is manufactured by Cluster Solutions (CSI) for NHT Global.

Sincerely,

Lee H. Lorenzen, CEO
